

Simple and efficient
KEMARO 900

KEMARO 900

Pallet splinters, packaging residues or industrial dust?

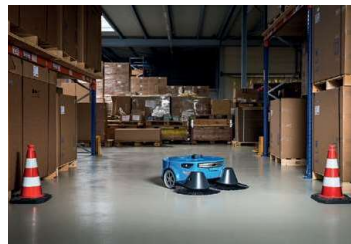

The KEMARO 900 is the world's first industrial dry cleaning robot with integrated dust extraction for large areas and coarse dirt. The sweeping robot orients itself autonomously in the rooms and cleans the areas efficiently around the clock. Thanks to its low design, it also cleans optimally under machines and equipment.

The K900 can be easily transported and used in several buildings or rooms. With the help of sophisticated algorithms and artificial intelligence, the robot can clean very large industrial areas.

No additional installations are required to operate the robotic sweeper. The intelligent navigation reacts to changing environments without orientation aids or pre-programming.

Cleans even coarse dirt

Area demarcation with guide cone

Cleaning in the pallet warehouse

Charging station

KEMARO 900 - Your Choice:

	K900 Eco	K900 Smart	K900 Comfort
Lithium-ion battery and charging station	•	•	•
Disc brushes and Brush roller	•	•	•
KEMARO Cloud (first year)	•	•	•
High-performance dust extraction (incl. filter)		•	•
Sensor update for increased area performance and flexible area delineation (with guide cones)		•	•
Remote control		•	•
Level monitoring of the dirt tank			•

Technical data:

Working width	90 cm	Cleaning speed	0.7 m/s	Weight incl. batteries	32 kg
Running time max.	up to 5 h	Ramp slope max.	12%	Dimensions L / W / H	79 x 72 x 35 cm
Battery	Lithium- Ion / 36 V	Cleaning capacity	1'000 m ² /h		
Charging time	2.5 h	Dirt tank capacity	35 l		

Maintenance contracts:

072.060	Simply Flat rate for: One service per year incl. driving and labour costs excl. wear and spare parts
072.070	Comfort Flat rate for: Two service per year incl. driving and labour costs incl. wearing parts (max. 3 filters, 1 brush set) excl. spare parts

Special accessories:

072.100	Guide cones for area demarcation	072.203	Brush roller
705.900	Marking strips for increased safety	072.204	Disc brushes (2 pieces)
072.102	Additional charging station	072.209	Lithium-ion battery
072.103	Remote control	072.210	Charger
072.202	Filter		

Wearing parts packages:

072.200	Wearing parts package (2 disc brushes, 1 sweeping roller, 2 filters, small parts)
072.201	Wearing parts package small (lips, seals)
