The puromat and the filtertwister.

For perfectly cleaned filter cartridges.

mariner 3S

Pure cleanliness is fundamental.

With the puromat cleaning device, your filter cartridges are easily and automatically cleaned.

Functionality

1. Place the puromat in a place where the dirty water can drain off well.
2. Connect the device to the water supply.
3. Place the dirty filter cartridges on the filter holders.
4. Turn on the tap and let the jet head run 2x up and 2x down.
5. Close the tap.

Proven advantages

- Safe – you save time and effort
- Clean – optimum cleaning of filter cartridges
- Fast – cartridges are perfectly clean within less than 2 minutes

Filters

All filter cartridges of the current Mariner 3S models can be cleaned with the puromat.

Technical data

Weight device with cover	14 kg
Dimensions (L x W x H)	60 x 55 x 99 cm
Water pressure	3-5 bar

The filtertwister.

Small, handy and fits on any wall.

The filter cartridge holder filtertwister helps with manual cleaning of all 3S filter cartridges.

Functionality
1. Place the filtertwister on a wall.
2. Place the dirty filter cartridge on the filter holder.
3. Clean the filter cartridge with a jet of water by moving the jet downwards and causing the cartridge to rotate.

Care instructions
Clean the filtertwister after each use.

Installation
Two mounting holes on the left rear wall allow it to be fixed to a solid wall.
